2. The question was discussed at great length before orders were passed declining to sanction the entertainment of additional men. No new facts are now reported, but the Archaeological officer says that work has suffered owing to the want of these men. This is not satisfactory & the Officer should have made proper arrangements with the available men, and not allowed work to suffer. There do not appear to be good grounds for reconsidering the order.

Sir,

With reference to G.O. No. G 265-6/G.M 40-09-15 dated 13th July 1910, I have the honour to draw the attention of the Government to para 42 of my Annual Report for 1909-1910 and to my letter No. 3 dated 1st July 1909 and to state that for taking estampages of inscriptions the services of two additional men are absolutely necessary and that work of the Department has considerably suffered since 1st July 1909, the date on which the appointments were abolished. These men will have full work almost throughout the year, barring only the rainy months.

2. (2) I therefore request that Government may be pleased to reconsider the above order and sanction the appointment of the two additional men without whom it is not at all possible to carry on the work of the Department satisfactorily.

I have the honour to be,

Sir,

your most obedient servant,

L. Narasimhachar

Sir,

With reference to your docket No. G 5001/G.M 45-10-15 dated the 1st instant, I have the honour to invite the attention of the Government once more to my letter No. 3 dated 1st July 1909 and to para 42 of my Annual Report for 1909-10, in which I have set forth the reasons for the employment of two additional men in connection with the preparation of mechanical copies of the large number of inscriptions that are being newly discovered year after year in several parts of the Province.

2. Though I do not know the details of the working of the Madras Epigraphist's Office, I can say that his work and mine are not the same. There are two separate offices in Madras, one, of the Archaeological Superintendent and the other, of the Epigraphist, for conducting the work that I am doing here. I have also in addition the duties of examining old manuscripts and bringing out revised editions of the volumes of the Epigraphia

Karnataka and of ancient Kannada classics. When the above Madras Officers are on tour, I believe there is very little work done at Head quarters, so that their offices may almost be said to be closed. But my office has to be held regularly, even during my absence on tour, for work connected with the manuscripts, the indexe, the Architectural portfolio &c, necessitating the presence of 3 peons at Headquarters for work connected with the office, 2 for sleeping in the office by turns and 1 for day duty.

3. I hope that the Government will now realize my difficulty and sanction the appointment of the two additional men asked for in the interests of the Department.

I have the honour to be,

Sir,

your most obedient servant,

R. Narasimhachar

Officer in charge of Archl. Researches in Mysore.
